Our commitment lies in providing extensive support in matters concerning the CIBRC registration for technical and formation registration for import and manufacturing in India and Import Permit for Non-Insecticidal use, as well as the FCO for Biostimulant registration.

We are pleased to present the third edition of **आकलन | Aaklan**, JDR Insecticides Consulting Pvt. Ltd.'s industry-focused magazine dedicated to regulatory updates, market intelligence, and research insights for the agrochemical sector.

This edition features:

9(3) Biopesticides; 9(3) TI, FI, TIM, FIM Cases; 9(4) TIM Cases; 9(4) TI/FI Imports. Beyond raw data, this edition provides comparative analytics:

- Top 20 most registered products from the meeting.
- Company-wise approvals and category distribution.
- Trends in crop focus (rice, chilli, tomato, wheat) and emerging pest/disease management priorities.

IMPLEMENTATION PLAN

Our implementation plan focuses on extracting, cleaning, and analyzing data from the 466th RC meeting minutes. The extracted data is then standardized to remove inconsistencies in crop names, product specifications, and technical details. After cleaning, we conduct both quantitative and qualitative analyses, including company-wise approvals, category distribution, pest and crop focus, and conditions like MRL fixation or cautionary labels. These insights are visualized through charts, graphs, and comparative tables, making the information accessible and impactful.
